1899

Report of State Boiler Inspector.

Office of State Boiler Inspector.

Helena, Montana, December 1, 1898.

To His Excellency Robert B. Smith, Governor of Montana.

Sir.—In compliance with law, I have the honor to submit herewith the tenth annual report of the Boiler Inspection Department, setting forth the money collected within the year from all sources, the disbursements, the number and grade of licenses issued, and to whom; together with such recommendations as at this time seem to me most essential. In pursuance of law further defining my duties, it is gratifying that I have no boiler explosions to report. The chief purpose of the law creating this department was to prevent this character of accidents, so destructive to life and property. When it is known that outside of Montana the past year has been one of unusual disaster in this respect, the wisdom of the act would seem to be completely vindicated. For while we apprehend that because something does not occur in the face of an applied remedy, that the remedy is the cause thereof does not necessarily follow; still the necessity for a remedy arising, the wisdom of its selection rests on the non-concurrence of that sought to be obviated. And further, there is abundance of evidence in the correspondence on file from stationary engineers in not less than a dozen states which contain requests for information as to the conditions which they might be examined under the provisions of Montana's law, at the same time stating were they in possession of a license issued from this department they would be assured of a more lucrative position.

The expense to the state of the department is met (and during the two years of your excellency's administration a surplus of \$1,764.11 has been turned into the state treasury) by a mere pittance imposed upon each engineer licensed, supplemented by a small fee collected from the owner or from the user of each stationary boiler examined. Of the latter it would seem pertinent to state that those who contribute by far the greater portion of the boiler inspection fees collected by this department yield them with the least disapproval.

In consideration of the above, I am sorry to report to your excellency that the help and means provided the department are not adequate to the complete and thorough discharge of the duties obligated by the provisions of the law. I would therefore recommend that an additional assistant inspector be appointed and that a suitable appropriation be given this department to cover his salary and expenses; or, if this be deemed unwise at this time, that at least an appropriation of not less than \$3,500 per year be provided for the office and traveling expenses of the department, for were it possible for me during certain seasons of the year to turn over the clerical work of the office to a competent clerk, it would, perhaps, afford the relief necessary at

this time. From a monetary standpoint, the state would be benefited by the increased appropriation in the additional amount of fees it will enable the department to earn, and what is of greater moment, the prosecution of the duties imposed by law could be more efficiently and completely accomplished.

I would also recommend that Section 561 of the Political Code be amended so as to read as follows:

Section 561. When complaint is made against an engineer holding a license from the inspector, that he, through negligence, want of skill, or inattention to duty, permitted his boiler to burn, or otherwise to become in bad condition, or that he has been found intoxicated while on duty or in the operation of steam machinery, through incompetence, inattention to duty or criminal carelessness, injures life or property, it is the duty of the inspector or the assistant inspector to make a thorough investigation of the charge and upon satisfactory proof of such charge to degrade or revoke the license of such engineer. The inspector and assistant inspector must, as often as convenient, publish a notice in some suitable newspaper, stating upon what days they will be in certain specified localities, and that they will then and at the time and place specified in such notice, receive applications and make examinations for the purpose of granting engineers' certificates, and that they will examine all boilers subject to inspection in the vicinity of the place appointed.

Also that Section 566 of the Political Code be amended so as to read as follows:

Section 566. That this article does not apply to locomotives in Montana, nor to boilers used in heating private houses, nor to any boiler having a capacity of five horse-power or less; nor are locomotive engineers or persons operating any of the boilers herein exempted from the operation of this article required to procure licenses from the inspector or the assistant inspector.

Also that Section 563 of the Political Code be amended by inserting after the phrase "when connected" the following:

Provided, That where such boilers are situated within the limits of any incorporated city, the fee for inspection shall be five dollars for each boiler inspected.

Attached to this report will be found tables showing in detail the receipts and disbursements of this department and the work accomplished by it during the year, as well as a condensed recapitulation of work done since 1891, as contained in the last two annual reports, and carried down to date.

In conclusion, I wish to reiterate the acknowledgements made in my last annual report, of the faithful and conscientious assistance rendered by Mr. James H. Dailey, Assistant Boiler Inspector, and also to make thankful acknowledgement to the owners and users of plants inspected, as well as to the engineers in charge, who, in the prosecution of my duty, extended to me every courtesy and cheerfully gave me valuable assistance.

Respectfully submitted,

FRANK A. BURNS,
State Boiler Inspector.

REPORT OF STATE BOILER INSPECTOR.

5

Recapitulation of work performed by the Boiler Inspector Department from November 30, 1890, to November 30, 1898.

Year.	Total Receipts.	Total Expenses.	Deficiency.	Surplus.
1891	\$4,515.00	\$6,997.44	\$2,482.44
1892	4,450.00	6,498.25	2,048.25
1893	4,665.50	6,571.21	1,905.21
1894	5,038.00	6,557.05	1,519.05
1895	5,913.00	7,141.26	1,234.26
1896	6,906.00	7,199.60	293.60
1897	6,962.50	6,199.19	763.31
1898	7,493.00	6,492.20	1,000.80

FINANCIAL

Statement for the year ending November 30, 1898.

RECEIPTS.

From appropriation—

For Inspector's salary	\$2,000.00
Assistant Inspector's salary	1,500.00
Traveling expenses	2,000.00
	————— \$5,500.00

From Office Receipts—

From —

28 original first class licenses	210.00
89 original second class licenses	445.00
263 original third class licenses	789.00
22 reissues of first class licenses	165.00
41 reissues of second class licenses	205.00
40 reissues of third class licenses	120.00
1,158 renewals	1,158.00
Cuts and rejections	171.00
642 boiler inspections	4,230.00
	————— \$12,993.00

REPORT OF STATE BOILER INSPECTOR.

DISBURSEMENTS.

Salary of Inspector	\$2,000.00	
Salary Assistant Inspector	1,500.00	
		\$3,500.00
Traveling expenses	1,555.27	
Office rent and supplies, Helena	204.73	
Office rent and supplies, Butte	240.00	
		2,000.00
Amount paid into state treasury		7,493.00
		\$12,993.00
Salary of Inspector as fixed by laws.....	\$2,400.00	
Amount of appropriation	2,000.00	
		400.00
Balance due Inspector		
Salary of Assistant Inspector as fixed by law.....	1,800.00	
Amount of appropriation	1,500.00	
		300.00
Balance due Assistant Inspector		
Amount paid by Inspector in excess of appropriation		292.20
		\$992.20
Total amount due department		

The total surplus for the year is \$1,000.80, the amount due as above having been included in the statement of expenses for the year.

In conducting the boiler inspections the total number of miles traveled was 19,050; the number of visits made, 875; the number of boilers examined, 656; the number of boilers examined externally and internally and pressure hydrostatically applied, 642. In these inspections 4,469 defects were noted, 1,203 of which were considered dangerous and suitable repairs were recommended. Sixteen boilers and seven mud drums were condemned as unfit for further use.

REPORT OF STATE BOILER INSPECTOR.

7

The following is a classified list of defects noted:

Nature of Defect.	Noted.	Dan-gerous.
Cases of incrustation and scale	415	69
Cases of internal corrosion and pitting	180	32
Cases of external corrosion and pitting	12	3
Broken stays and braces	35	35
Loose and defective stays and braces	56	16
Furnaces defective	23	12
Cracked plates	14	14
Crystallized plates	8	5
Blistered and bagged plates	60	18
Defective rivets	1,840	217
Leaky tubes	1,521	625
Defective setting of water column	15	15
Defective blowoffs	16	5
Safety valves overloaded	122	122
Defective safety valves	25	8
Boilers with cutoff valves between safety valve and boiler...	3	3
Defective pressure gages	124	14
Totals	4,469	1,205
